SAFE HARBOR STATEMENT

The statements in this presentation that relate to future plans, events or performance are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate, or imply future results, performance, or achievements. Examples of forward-looking statements include, among others, statements the Company makes regarding expected savings from restructuring and simplifying actions, the cost of implementing such actions, operating results, expectations for the level of sales for the next several quarters, the Company's belief that it has sufficient liquidity to fund its business operations, and expectations with respect to the conversion of backlog to sales. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on the Company's current beliefs, expectations and assumptions regarding the future of the Company's business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of the Company's control. The Company's actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, general economic and business conditions, conditions affecting the industries served by the Company and its subsidiaries, conditions affecting the Company's customers and suppliers, competitor responses to the Company's products and services, the overall market acceptance of such products and services, the pace of bookings relative to shipments, the ability to expand into new markets and geographic regions, the success in acquiring new business, the impact of changes in income tax rates or policies, commercial activity and demand across our and our customers' businesses, global supply chains, the prices of our securities and the achievement of our strategic objectives, the ability to attract and retain qualified personnel, the ability to successfully integrate an acquired business into our business model without substantial costs, delays, or problems, and other factors disclosed in the Company's periodic reports filed with the Securities and Exchange Commission. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict the occurrence of those matters or the manner in which they may affect us. The Company has no obligation or intent to release publicly any revisions to any forward-looking statements, whether as a result of new information, future events, or otherwise.

This presentation will discuss some non-GAAP financial measures, which the Company believes are useful in evaluating our performance. You should not consider the presentation of this additional information in isolation or as a substitute for results prepared in accordance with GAAP. The Company has provided reconciliations of comparable GAAP to non-GAAP measures in tables found in the Supplemental Information portion of this presentation.

M&A SUPPLEMENTED OUR GROWTH

Completed 18 complementary acquisitions over 20+ years

1962 — Hathaway Corp. goes public

2002 — **New Direction** Sold Instrument Business. **Motion Focus:** Emoteq & COPI

2003 — **New Name:** Allied Motion Technologies

2004 — Acquired Premotec

2010 — Acquired Agile Systems

2013 — Acquired Globe Motors

2018 — Acquired Maval OEM Business

2020 — Acquired Dynamic Controls, Ltd.

2021 — Acquired ALIO

2022 — Acquired ThinGap

2022 — Acquired Airex

2023 — Acquired Sierramotion

1939 — Hathaway Corp. founded

2001 — Decision made to focus on motion and divest instrumentation business

2002 — Acquired Motor Products Owosso

2004 — Acquired Stature Electric

2010 — Formed Allied Motion Controls

2010 — Acquired Östergrens

2016 — Acquired Heidrive

2018 — Acquired TCI, LLC

2021 — Acquired ORMEC

2021 — Acquired Spectrum Controls

2022 — Acquired FPH Group

2023 — **New Name:** Allient Inc.

2024 — Acquired SNC Manufacturing

COMPETITIVE ADVANTAGE THROUGH SYSTEM SOLUTIONS

Automated GPS-Guided Vehicle Steering Module with Torque Motor, Integrated Servo Drive with CAN Bus

Cartesian Robot Systems with Integrated Linear Motors, Single and Multi-Axis Drives and Controls

Synchronized Multi-axis Motion controllers, drives and actuation systems.

Lightweight composites, Electric Direct Drive Motors and Motor Systems for Ground Based Vehicles and Platforms

Hybrid Hexapod Systems with Integrated Linear Motors, Drives and Controls for multi-axis point precision

Highly Customized, customer specific, mission critical solutions - Custom Control, Drive, Software and Electromechanical Solutions

System capabilities evolve with strategic acquisitions

Building blocks include controls, drives, motors, gearing and feedback, light weighting and electrification technologies

System capabilities range from vehicle steering systems and motors with integrated drive electronics to nano-precision motion systems and ground-based vehicle electrification and light weighting

THE NEW NEXUS

*Allied Nexus Technologies (Allient) - Captures the value opportunity that exists by **Connecting** our three technology pillars: Motion, Controls and Power*

Allient is a natural evolution of our company building on the success of our well-defined growth strategy

Environmental and **Social** responsibility built-in

Market Focus provides more comprehensive solutions for a rapidly expanding set of opportunities in our key target markets

Replicate our growth and success in the Motion industry to an even broader base within the Controls and Power industries

The Market Opportunity: Serviceable available market is double vs. Motion only

© Allient Inc.

MARKET FOCUSED

Unique products and technologies in Motion, Controls and Power

Target Vertical Market Development

Utilize: Technology from several TU's

Maintain: TU integrity

Improve: Single point of contact for the customer

Create vertical leadership team

Assign program responsibility

Assign technical team

Develop dynamic tailored marketing materials

Each unit have P&L Responsibility – Ensures Ownership and Accountability

TARGET MARKET: INDUSTRIAL

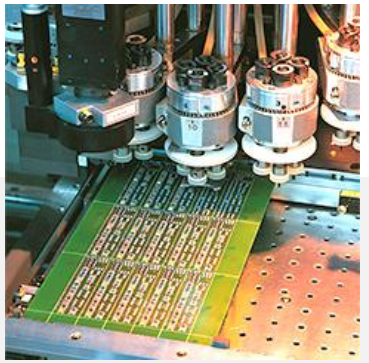

49% of TTM Q3 2026 sales

Markets

Factory automation, material handling, robotics, industrial tools, semiconductor equipment, Oil & Gas, data centers

Applications

- Material handling including manned and unmanned vehicle steering and traction and conveyors
- Industrial and specialized robots
- Power quality, power conversion and electrical transformers
- Welding wire feeders, conduit benders and a host of "jobsite" tools
- Handling, inspection and testing of components and final products, such as PCs and high resolution printers

© Allient Inc.

TARGET MARKET: VEHICLE

17% of TTM Q3 2026 sales

Markets

Off- and on-road construction and agricultural equipment, trucks, buses, RVs, lift trucks, marine, recreational (ATVs) and utility vehicles

Applications

- Electronic power steering and drive-by-wire applications
- Traction / drive systems, pumps, automated and remotely guided power steering systems
- Actuation systems (e.g., lifts, slide-outs, covers, etc.)
- Mobile HVAC systems
- Alternative fuel systems such as LPG, fuel cell and hybrid vehicles

© Allient Inc.

TARGET MARKET: AEROSPACE & DEFENSE

15% of TTM Q3 2026 sales

Markets

Commercial aviation, aerospace systems, defense systems, unmanned aerial vehicles, NASA

Applications

- Inertial guided missiles, mid-range smart munitions systems
- Weapons systems, ramp, latch, seat and wiper control on armored personnel carriers
- Lightweight composites for ground based vehicles
- Security and access control, camera systems, door access control
- Airport screening and scanning devices

© Allient Inc.

TARGET MARKET: MEDICAL

14% of TTM Q3 2026 sales

Markets

Medical devices and equipment, surgical robotics, patient handling and medical mobility

Applications

- Medical Instrumentation: Surgical robots, kidney dialysis machines, respiratory ventilators, heart pumps
- Programmable pumps to meter and administer infusions, pain control and antibiotics
- Advanced, autoclavable surgical handpiece motors
- Global leader for motors in prosthetics
- Patient Mobility: Wheel chairs, scooters, stair lifts, patient lifts, transport tables and hospital beds

MEGA TECHNOLOGY TRENDS

Electrification

Electrification supplanting internal combustion engines and hydraulics across transportation, industrial equipment, and defense

Energy Efficiency

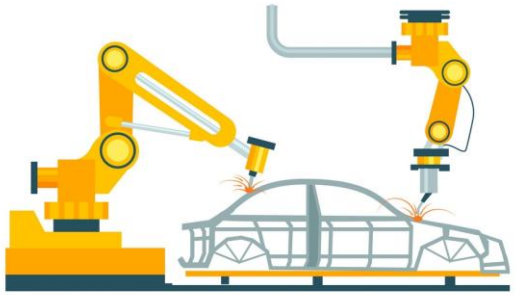

Massive effort to reduce energy consumption

Reduces operating costs

Minimizes carbon footprint

Industrial Automation

Addresses challenging labor environment

Advances reshoring efforts

Drives efficiency and productivity

BUILDING ON RECORD PERFORMANCE WITH A STRONGER, MORE SCALABLE ALLIENT

Proven Earnings Power

- Record revenue, margins and orders demonstrate the operating leverage in our model
- STAN is embedded in how we work, driving continued gains in mix, productivity and execution

Targeted Growth Vectors

- Data center and infrastructure is a growing contributor, now more than 10% of TTM sales
- A&D momentum is building, and our drone and unmanned systems offering continues to advance
- We're focused on higher-value motion, controls and power solutions that deepen customer partnerships

Positioned for 2027

- Record backlog of $351.5M provides a positive outlook as we move into early 2027
- Near-term priorities are converting backlog, support for our internal growth opportunities and to maintain our disciplined approach to investments
- Building momentum with stronger earnings power

COMPETITION

Our products and solutions are sold into a global market with a large and diverse group of competitors that vary by product, geography, industry and application.

The motion control market is highly fragmented; some larger competitors include:

- Ametek
- Regal Rexnord *(acquired Altra Industrial Motion Corp – March 2023)*
- Parker Hannifin Corporation

Unlike many of our competitors, we are unique in our ability to provide custom-engineered solutions that integrate the products we manufacture.

(1) Applies a blended federal, state, and foreign tax rate of 23% applicable to the non-GAAP adjustments.

Adjusted net income and diluted EPS are defined as net income as reported, adjusted for certain items, including amortization of intangible assets and unusual non-recurring items. Adjusted net income and diluted EPS are not a measure determined in accordance with GAAP in the United States, and may not be comparable to the measure as used by other companies. Nevertheless, the Company believes that providing non-GAAP information, such as adjusted net income and diluted EPS are important for investors and other readers of the Company's financial statements and assists in understanding the comparison of the current quarter's and current year's net income and diluted EPS to the historical periods' net income and diluted EPS.

In addition to reporting revenue and net income, which are U.S. generally accepted accounting principle ("GAAP") measures, the Company presents EBITDA and Adjusted EBITDA (earnings before interest, income taxes, depreciation and amortization, stock-based compensation expense, acquisition and integration-related costs, restructuring and business realignment costs, and foreign currency gains/losses), which are non-GAAP measures. The Company believes EBITDA and Adjusted EBITDA are often a useful measure of a Company's operating performance and are a significant basis used by the Company's management to evaluate and compare the core operating performance of its business from period to period by removing the impact of the capital structure (interest), tangible and intangible asset base (depreciation and amortization), taxes, stock-based compensation expense, acquisition and integration-related costs, restructuring and business realignment costs, foreign currency gains/losses on short-term assets and liabilities, and other items that are not indicative of the Company's core operating performance. EBITDA and Adjusted EBITDA do not represent and should not be considered as an alternative to net income, operating income, net cash provided by operating activities or any other measure for determining operating performance or liquidity that is calculated in accordance with GAAP.

TOTAL NET DEBT AND LEVERAGE RATIO RECONCILIATION

($ in thousands)

	September 30, 2026	December 31, 2025
Total debt	$ 173,372	$ 180,389
Less: cash and cash equivalents	$ 39,646	$ 40,705
Total net debt (Non-GAAP)	$ 133,726	$ 139,684
Adjusted EBITDA (Non-GAAP)	$ 89,669	$ 76,865
Leverage Ratio (Non-GAAP)	1.49	1.82

We believe that total net debt and leverage ratio provide meaningful measures of liquidity and a useful basis for assessing our ability to fund our activities, including the financing of acquisitions and debt repayments. Total net debt is calculated as total debt less cash and cash equivalents. Leverage ratio is total net debt divided by adjusted EBITDA for the trailing twelve months.
